Data Source

This dataset is extracted from the **2018-2022 American Community Survey (ACS) 5-Year Subject Tables** > **S0101: Age and Sex** provided by `US Census Bureau`. See, for example, one of those tables for **ZIP code 10001**. We used the table **New York State ZIP Codes-County FIPS Cross-Reference** from `NY Open Data` as reference for a list of ZIP codes in New York State. See here to see how this dataset was generated.
